

Platinum Projects

Agile Working Case Study

PROJECT LOCATION:
30 Crown Place

PROJECT DESCRIPTION:
M&E service alterations

PROJECT DURATION: 14 Weeks

THE SCOPE:

Platinum Facilities was appointed by a long-standing client to manage alterations to the building M&E Services, to allow the creation of an agile working environment. The project was across 6 working floors and was completed in 2 phases, each phase consisting of around 5 weeks out of normal working hours.

- Mechanical & Electrical isolation, decommissioning and strip out of services.
- New services installed to new open plan work space and collaboration spaces created.
- Public health modifications.
- Modifications to FCU's ductwork on the landlord's systems.
- Commissioning & testing.
- O&M documentation & record drawings.
- New sprinkler and power installation to bespoke meeting PODS.
- Fire alarm modifications to suit new office layout.
